

BOUYANT LIFESMOKE "KEL" ITEM Nº 9920002

The lifesmoke "Kel" is a compact, daylight distress signal designed to be easy and safe to handle. It provides effective position marking during rescue operations and can be used to indicate wind direction, producing dense orange smoke for a minimum of 3 minutes.

Application

The Oroquieta lifesmoke is a small and compact distress signal for daylight use only. Designed for storage in liferafts or lifeboats and for use on other type of boats.

- Signal for position marking during rescue operations.
- Indicates wind direction.
- Safe use on oil or petrol covered water.

Operation

1. Remove plastic cap. Point away from body.
2. Pull tab firmly away from canister. Ensure hand remains clear of HOT END.
3. Throw lifesmoke overboard immediately. Smoke will be emitted after a 2 seconds delay.
